KENYA 2030

Kenya Association of Technical Institutions
Promoting Excellence in Training and Technology

MINISTRY OF EDUCATION

SIAYA INSTITUTE OF TECHNOLOGY

ECONOMIC STIMULUS

TRAINING OPPORTUNITIES
JANUARY / MAY / SEPTEMBER

SIAYA INSTITUTE OF TECHNOLOGY
P. O. BOX 1087-40600 SIAYA

VISION
To be a market leader and regional trendsetter in the provision of top-notch training, research and innovation

MISSION
To produce a specialized human resource with creative, innovative and adaptive skills to face the challenges of globalization

Siaya Institute of Technology (SIT) is a Public Institution managed by the National Government through the Ministry of Education. It is located situated in Siaya town, along the Siaya-Ugunja Road on a 40-acre piece of land, just after the Siaya County Referral Hospital. It was established in 1987 by the District Development Committee (DDC) Siaya, as a community initiative, to train students in technical skills in areas of Masonry, Plumbing, Agriculture and Business courses.

Over the years, the Institute has had to invest in infrastructural development to meet the demands of an ever-increasing student population, rapid technological advancement and changes in TVET subsector reforms and market trends. Some of the recent developments include construction of more workshops/ laboratories, a library/administration block complex and equipping the Information Communication Technology (ICT) Centre, Building and Civil Engineering Department and Applied Science Laboratories with state of the art equipment.

The Institute offers a diverse array of courses examined by Kenya National Examinations Council (KNEC), Kenya Accountants and Secretaries National Examination Board (KASNEB) and Curriculum Development Accreditation and Certification Council (CDACC). It also enjoys partnership with regulatory bodies like Technical Vocational Education and Training Authority (TVETA), Kenya National Audit Unit (KENAU), Institute of Certified Public Accountants of Kenya (ICPAK) and Kenya Nutritionists and Dieticians Institute (KNDI).

Plans are underway for the Introduction of Diplomas in Pharmaceutical Technology and Medical Laboratory Technology in the FY 2019/2020

As premier Institute of Technology in State Department of Vocational and Technical Training the programs offered have significant impact contributing to the Global Sustainable Development Goals (SDG) and Kenya's Vision 2030 with clear focus on the Presidential Big four Agenda of Food Security, Affordable Housing, Manufacturing, and Universal Healthcare. The ultimate goal of SIT is to admit and train graduates who meet global industrial standards.

Other non-academic departments such as Guidance and Counselling, Games and Sports support delivery of academic programmes. School-based, evening and weekend programmes are available in some courses.
